1. Introduction

TrueRepairs is an online platform that helps users generate accurate automotive repair estimates. The system allows you to upload photos, run AI damage scans, manually build reports, and download a professional repair summary in PDF format.

1.1 What You Can Do with TrueRepairs

- Create an account and log in
- Upload vehicle images for AI damage detection
- View a list of detected parts and cost estimates
- Build manual reports from scratch
- Save and manage vehicle information
- Download clean, formatted PDF reports

1.2 Who Is This Manual For

This manual is designed for all TrueRepairs users, including:

- Vehicle owners
- Repair shops
- Insurance estimators
- Anyone wanting a simple, fast repair estimate

1.3 Before You Begin

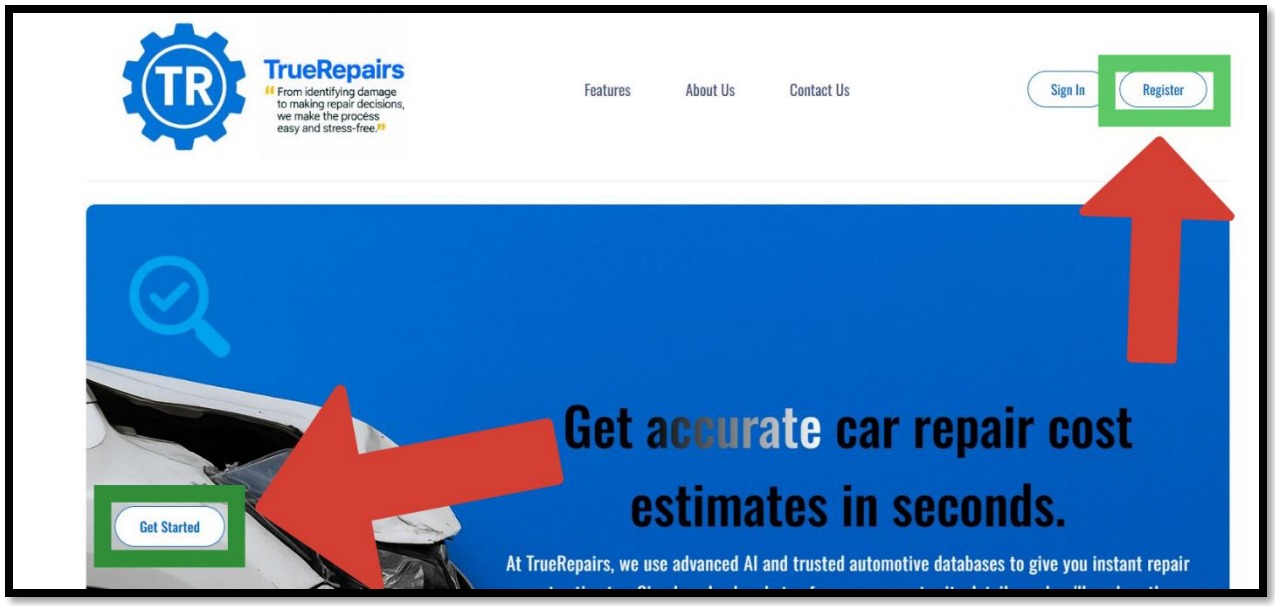

- A computer or mobile device
- Internet access
- A modern web browser

2. Getting Started

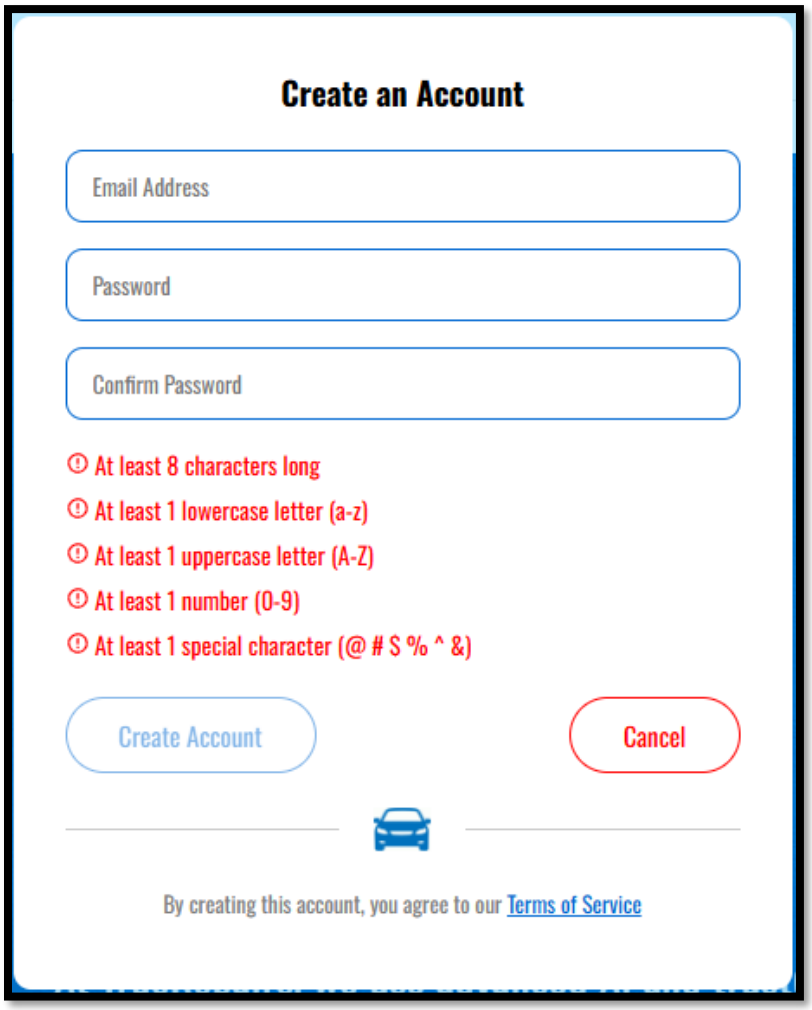

This section explains how to create your account, log in, and access the main dashboard of TrueRepairs.

2.1 Creating an Account

1. Go to the TrueRepairs website.
2. Click Register or Get Started.

3. Enter your email, password, and required information.

4. Confirm your password.
5. Once all fields have been satisfied click Create Account.

6. Check your email for any verification messages to active the account. (check junk folder)
7. Log in using your new credentials.

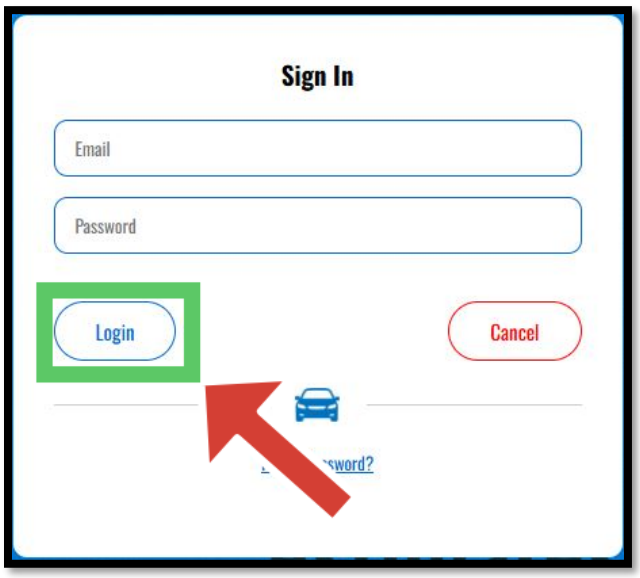

Tip: Use a valid email so you can receive verification and any future updates.

2.2 Logging In

1. Go to the TrueRepairs website.
2. Click Sign In.

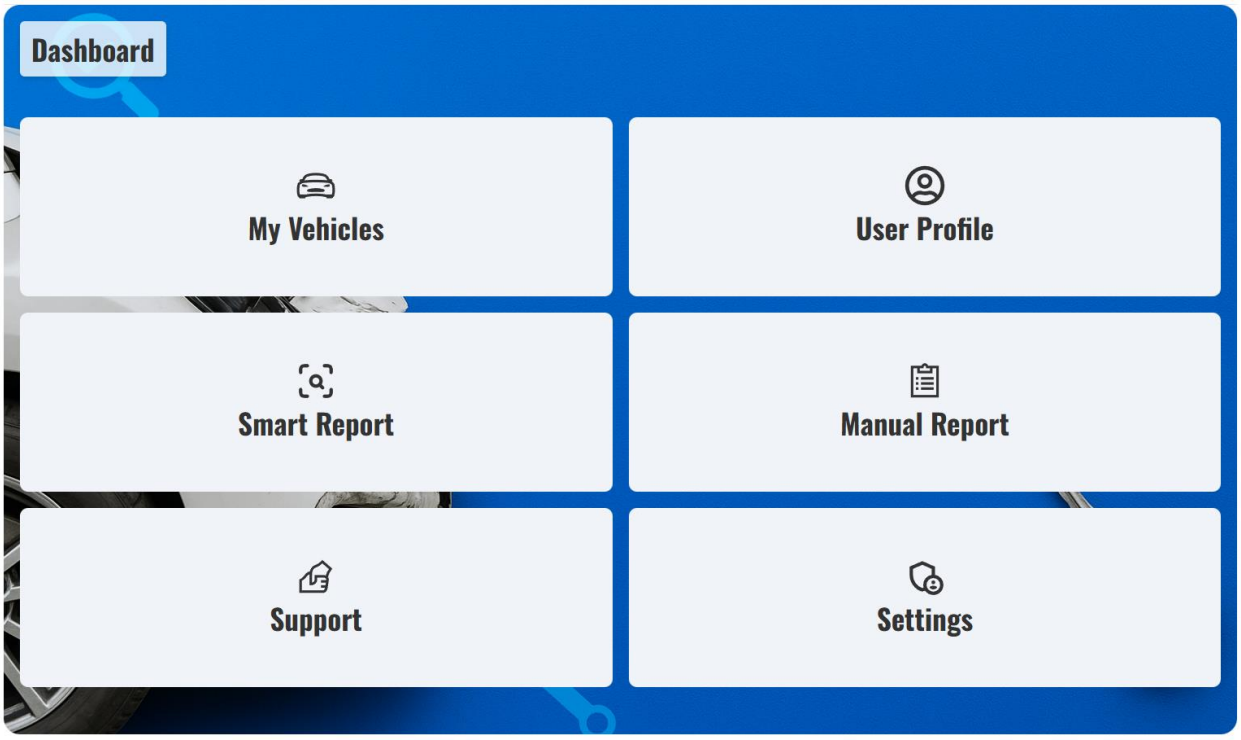

3. Enter your email and password.

4. Click Login to access your dashboard.

2.3 Navigating the Dashboard

After logging in, you will see the TrueRepairs Dashboard. From here you can access all features:

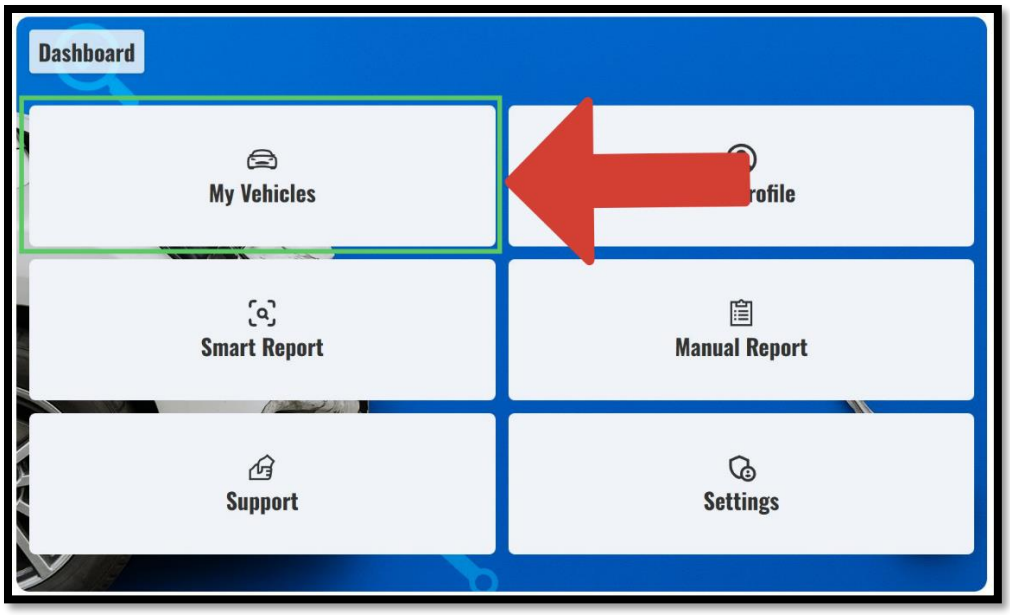

- **Smart Report** - Analyze uploaded photos for vehicle damage
- **Manual Report** - Create a repair estimate manually
- **My Vehicle** - Add or edit vehicle details
- **Support** - Gives insight into the website and how to contact the team
- **Settings** - Manage account options
- **User Profile** - Change the users email or password

3. Vehicle Information

Before running an AI scan or creating a manual report, you must first add your vehicle.

3.1 Adding a Vehicle

1. Click **My Vehicles** on the dashboard.

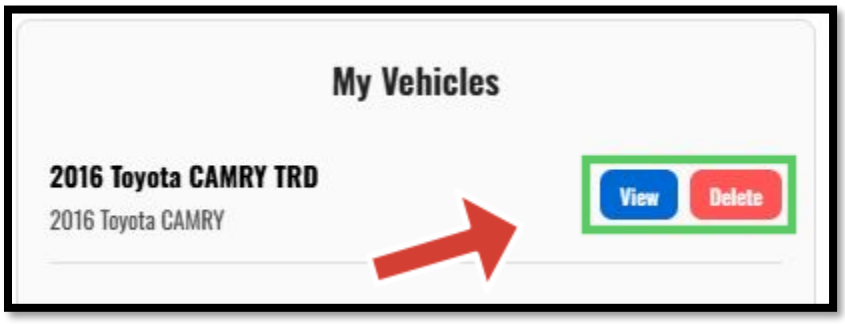

2. Option A - Select Vehicle Manually
    - Click My Vehicle on the dashboard.
    - Select your Year, Make, Model, Engine, and Trim.
    - Click Add Vehicle.
3. Option B - Add Vehicle by VIN
    - Go My Vehicle on the dashboard.
    - Enter your 17-character VIN number in the VIN field.
    - Click Search & Save.
    - The system will automatically fill in your Year/Make/Model/Engine/Trim.

3.2 View or Delete Vehicle Information

1. Click **My Vehicles** on the dashboard.
2. Within the My Vehicles section there are two options view or delete
3. Click view to see the information of the vehicle and delete to remove the vehicle.

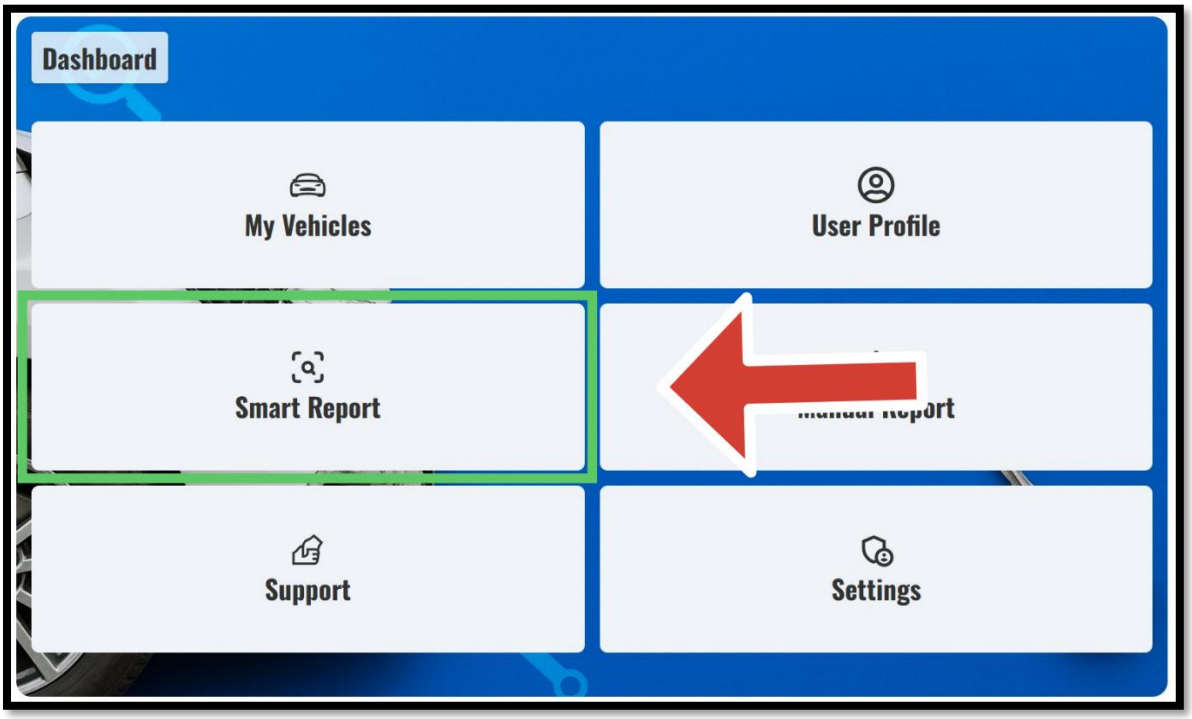

4. AI Damage Scanner

The AI Damage Scanner allows you to upload photos of your vehicle and automatically detect damaged parts, along with estimated repair or replacement costs.

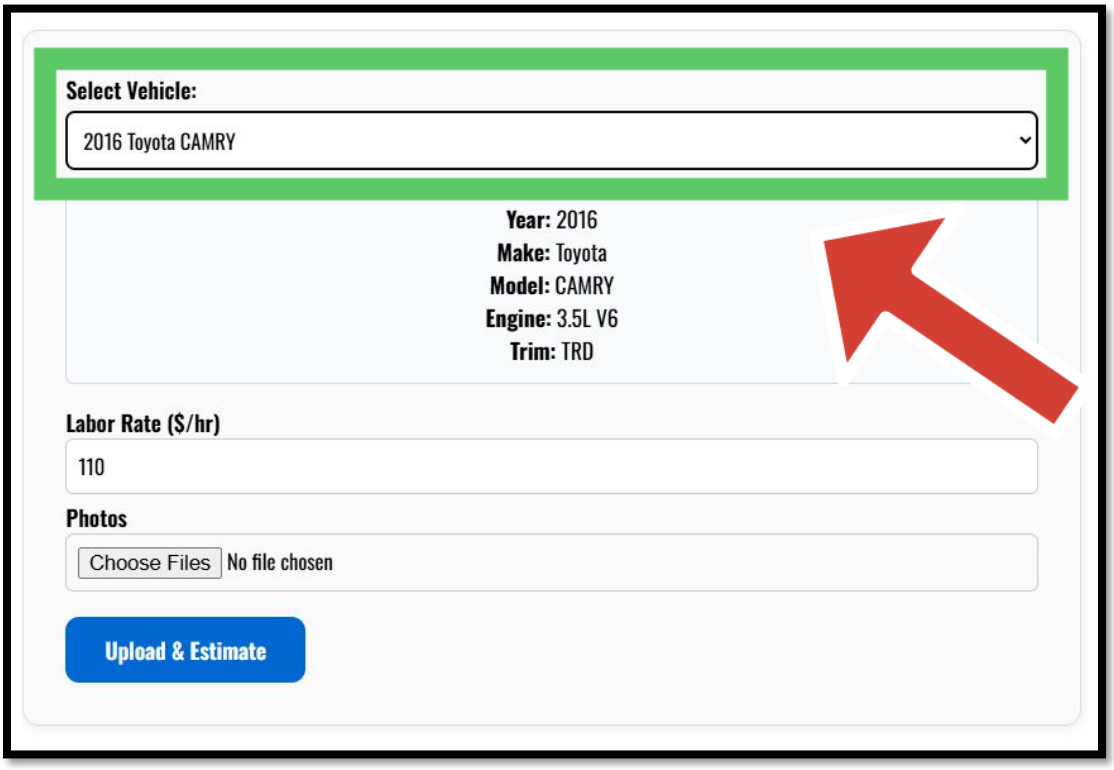

4.1 Starting an AI Scan

Before scanning, make sure you have selected or added a vehicle (see Section 3).

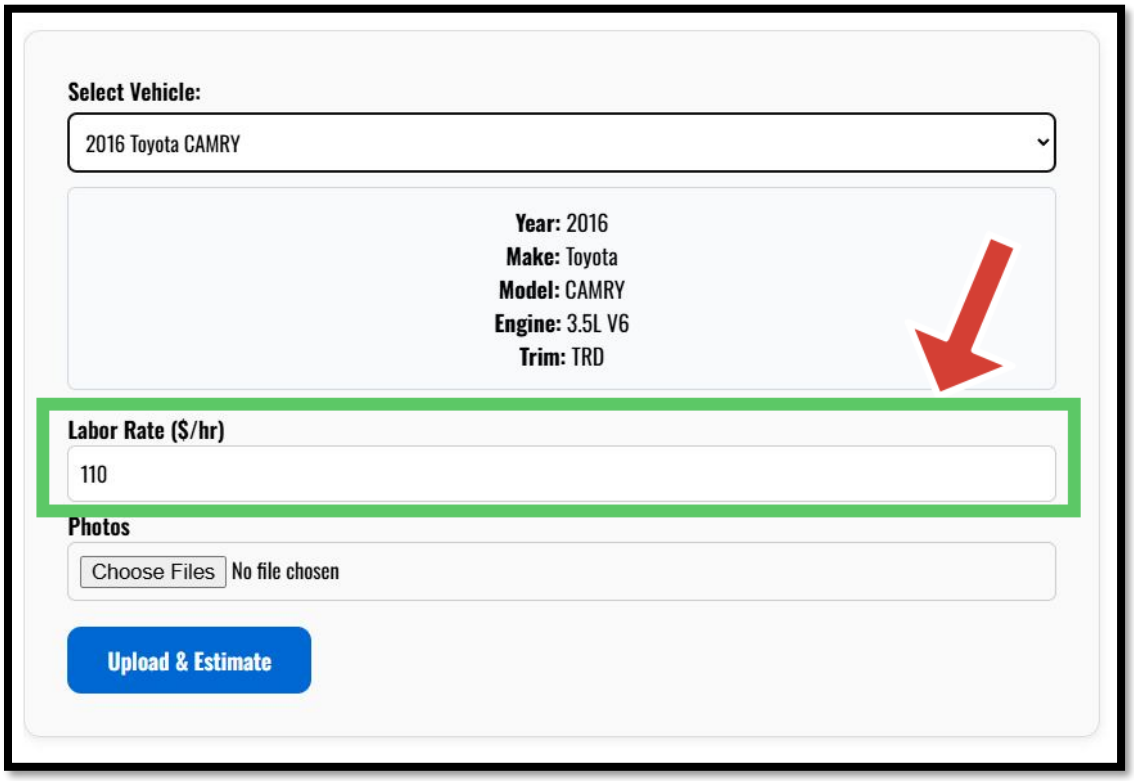

1. Click Smart Report on the dashboard.

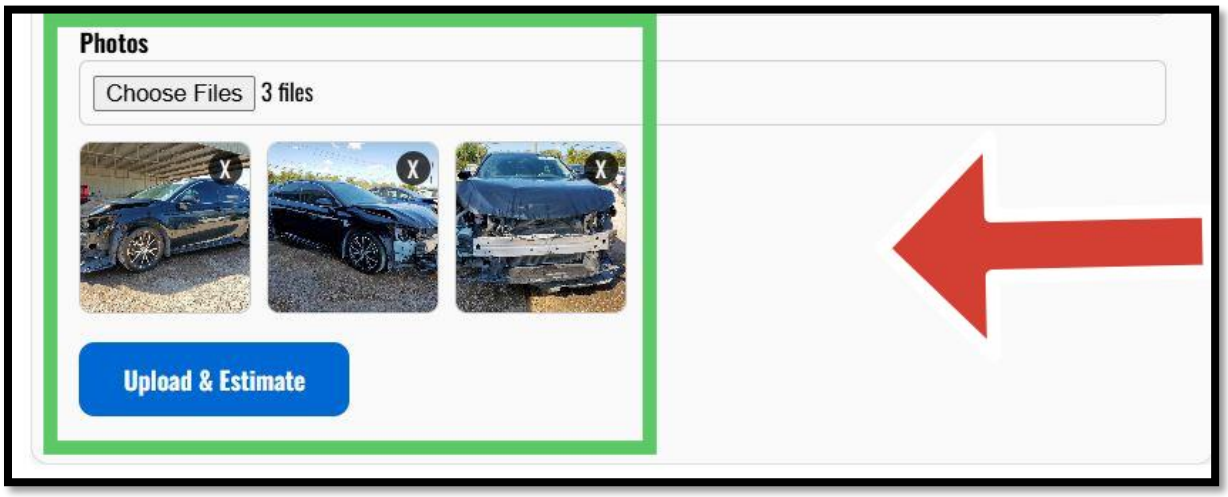

2. Select the vehicle you want to scan.

3. Input the labor rate per hour.

4. Click “Choose Files” select the needed damaged photos.

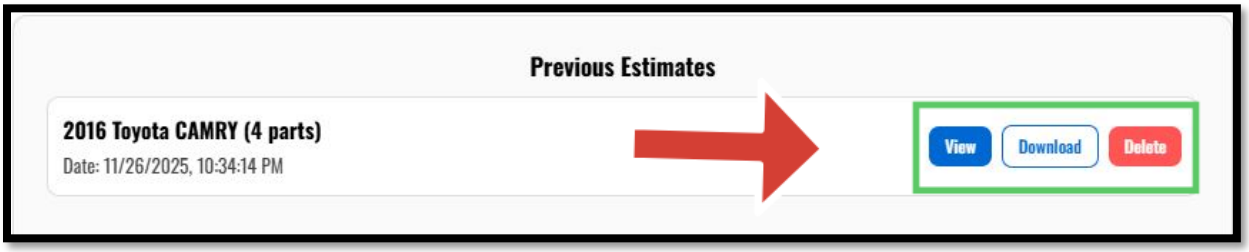

5. Click upload & estimate to generate a report.

4.2 Scanned Results

After the AI scan is complete, each result or generated report will display three actions:

1. **View Report**
    - Opens the full detailed report on screen
    - Allows you to review all detected parts, costs, and images
    - You can make edits or remove items if needed
2. **Download Report**
    - Create a PDF version of your report
    - Automatically formats all parts, totals, vehicle details, and images
    - Saves locally to your device for printing or sharing
3. **Delete Report**
    - Permanently removes the report from your saved list
    - This action cannot be undone
    - Useful for clearing duplicates or old test reports

5. Manuel Repair Reports

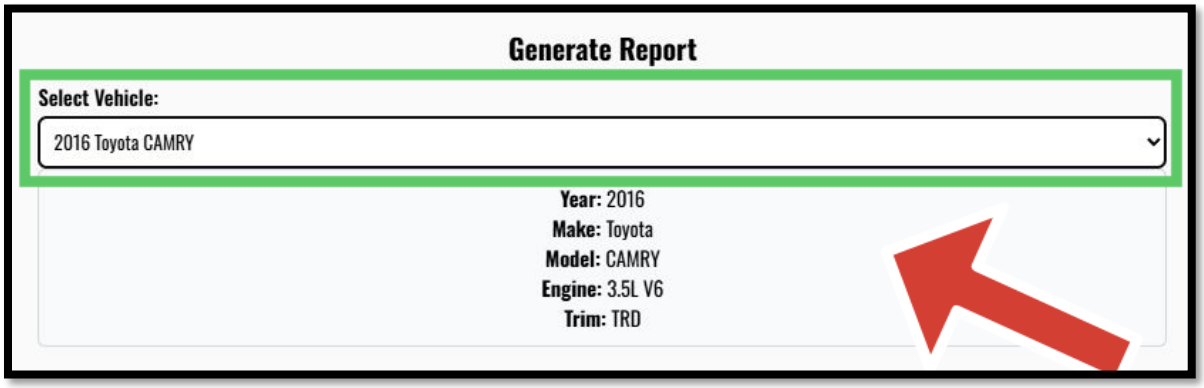

The Manual Report feature allows you to create a repair estimate without using the AI scanner. You can choose a vehicle, select damaged parts, and generate a detailed cost report manually.

5.1 Starting Manuel Report from

1. Click **Manual Report** from the dashboard.

2. Select the vehicle you want to create the report for.

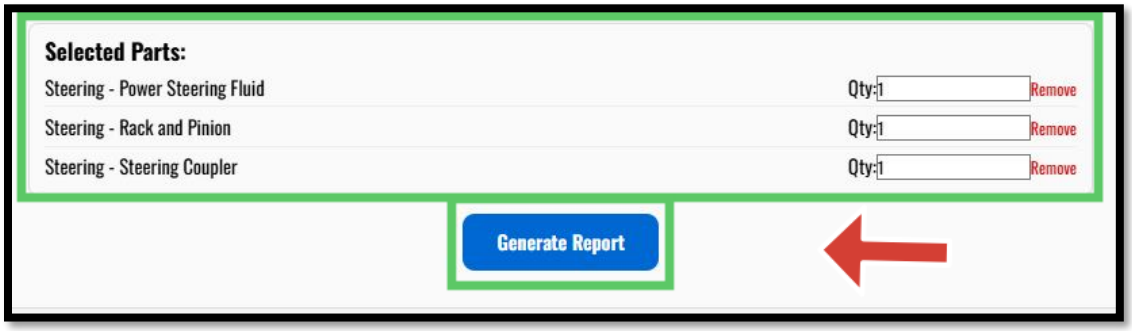

3. The report builder will load with all available part categories.

5.2 Selecting Parts

1. Browse through the part categories and then the sub-categories.

2. Choose the part you want to add to your report.
3. Repeat the process for all damaged parts you want included.

4. Select the **Generate Report**.
5. The system will automatically show:
    - Estimated low cost
    - Estimated high cost
    - Average total

5.3 Generating, Downloading, and Deleting the Reports

When your report is complete:

1. Click Generate Report to review the final layout.
2. Click Download PDF to save the report to your device.
3. The PDF will include:
    - Vehicle information
    - All selected parts
    - Cost estimates
    - Totals and calculations
4. Click Delete to remove that specific report.

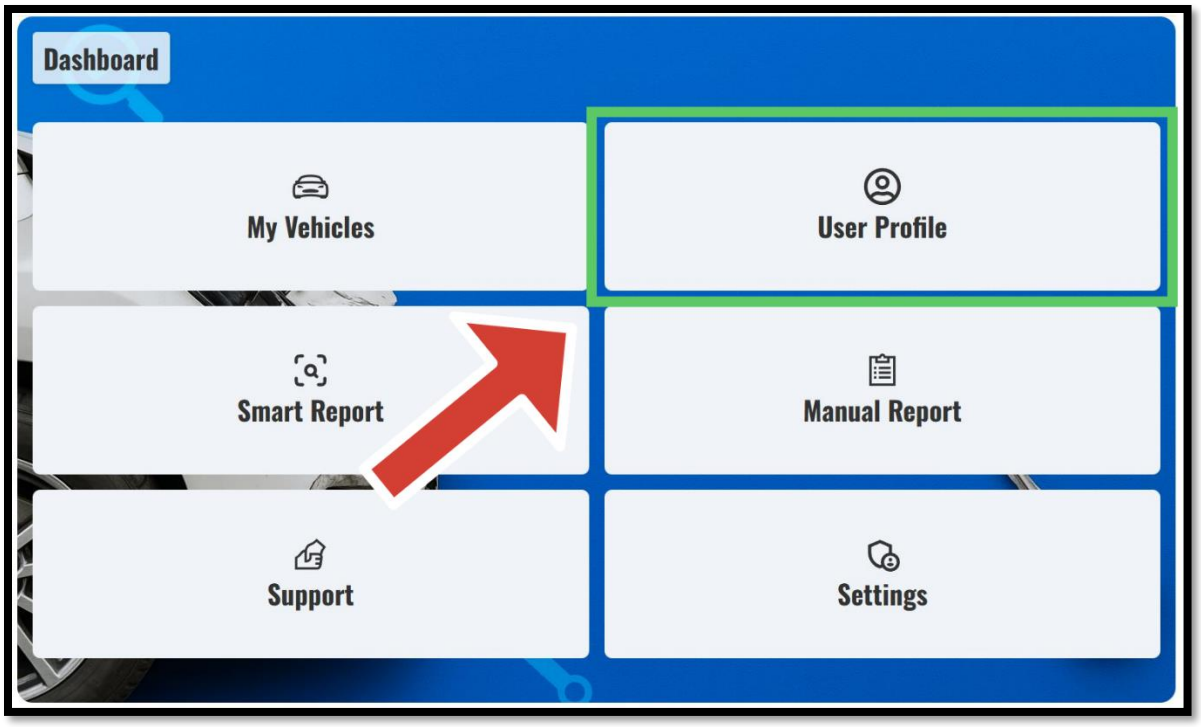

6. User Profile

The User Profile section allows you to update your account email and password. For security reasons, TrueRepairs requires your current password before any account changes are saved.

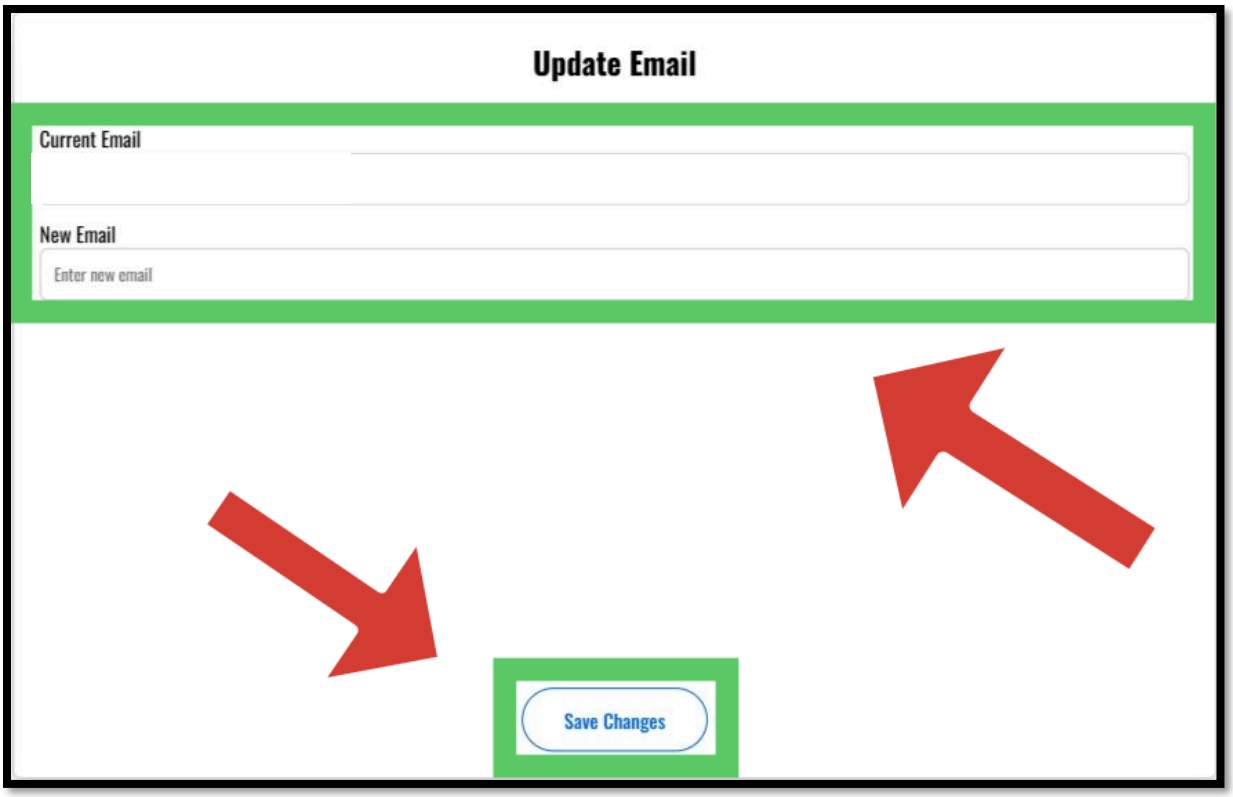

6.1 Updating Your Email

To change your account email:

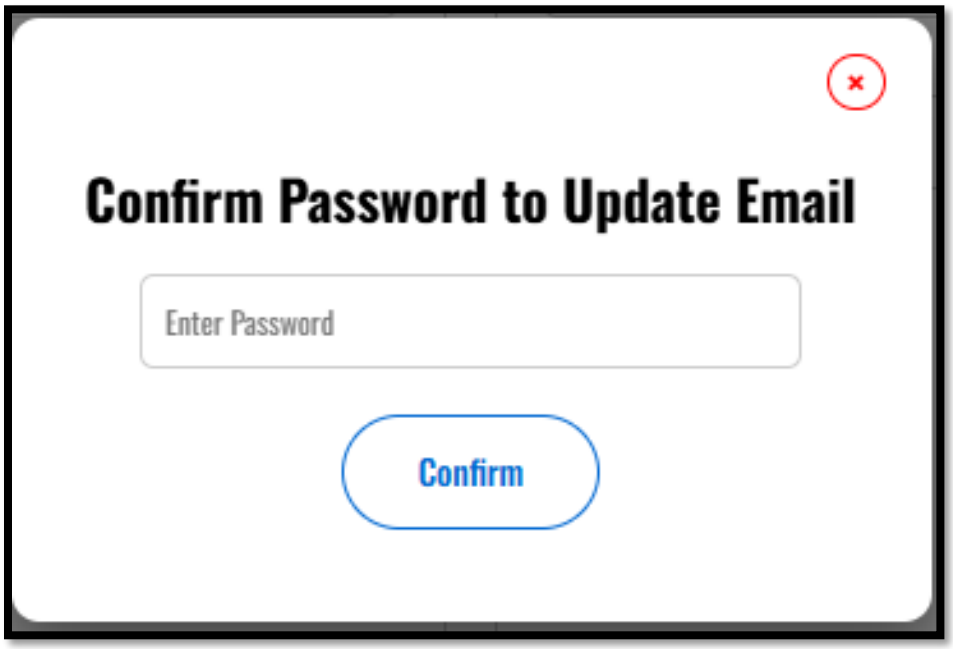

1. Click **User Profile** on the dashboard.

2. Go to Update Email.
3. Enter your New Email.

4. Click Save Changes.
5. A confirmation box will appear asking for your Current Password.

6. Enter your password to confirm the email change.
7. Your email will be updated.

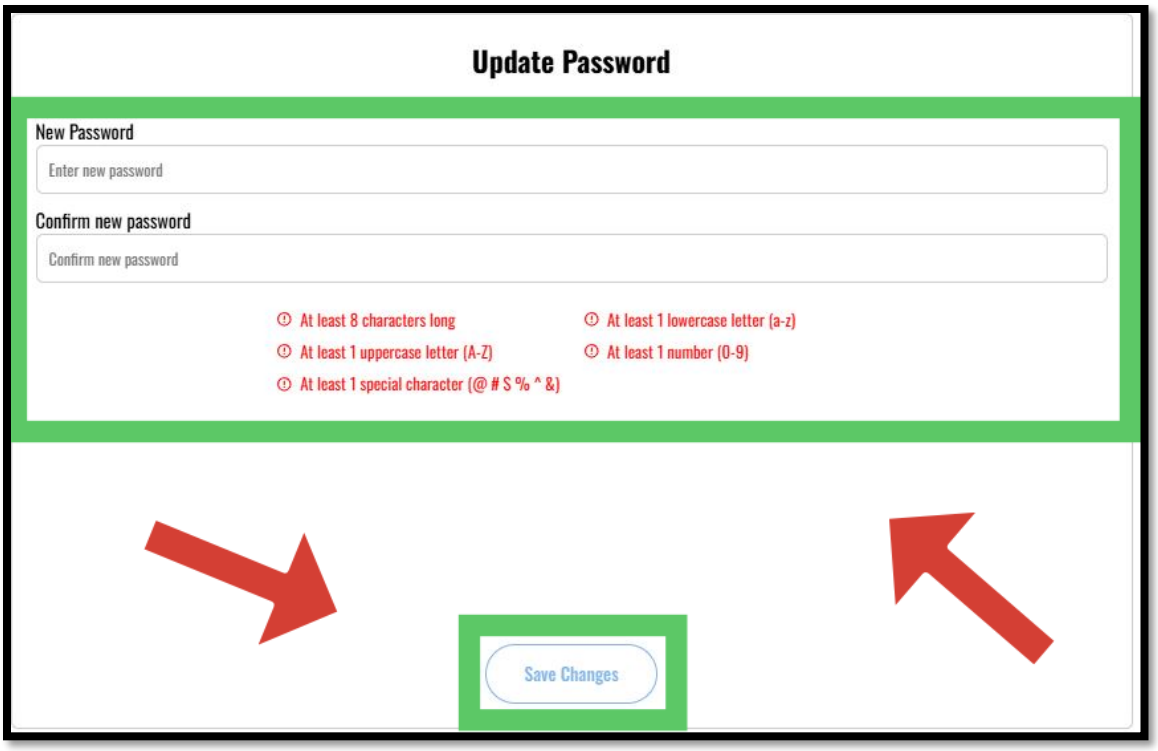

6.2 Updating Your Password

To change your password:

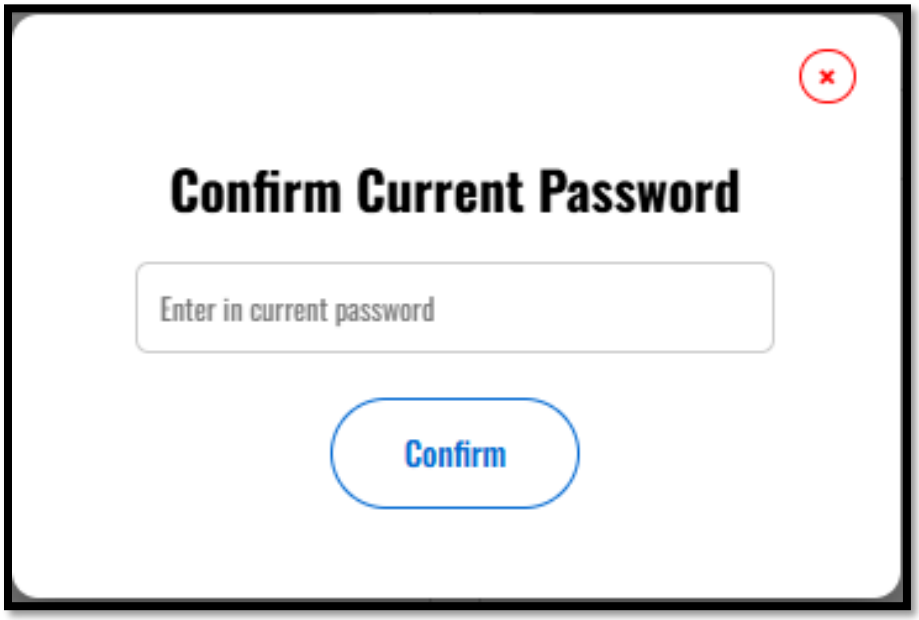

1. Click **User Profile** on the dashboard.

2. Under Update Password, enter your New Password.
3. Enter Confirm New Password to match it exactly.

4. Click Save Changes.
5. A confirmation box will appear asking for your Current Password.

6. Enter your current password to finalize the update.

7. Settings

The Settings page allows you to manage your account privacy and control what happens to your TrueRepairs data. You can temporarily deactivate your account or permanently delete it.

7.1 Temporarily Deactivate Account

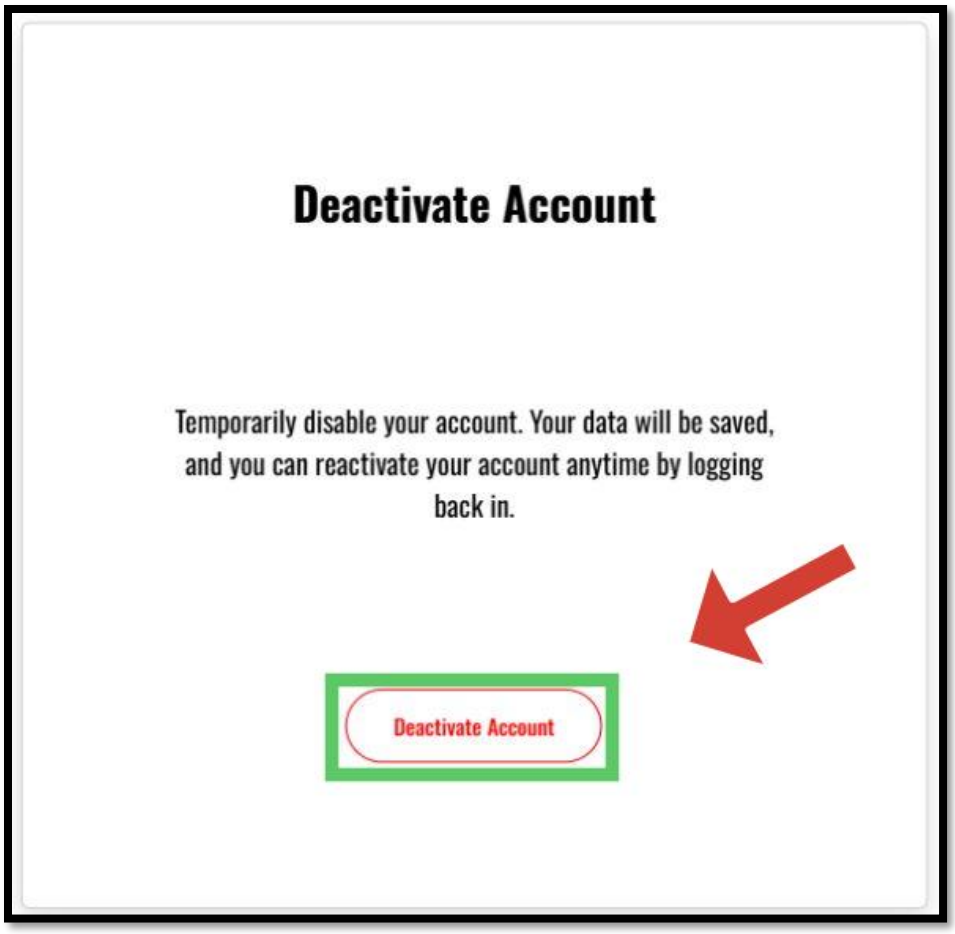

Deactivating your account will hide your profile and disable access, but all your data will remain saved. You can reactivate your account at any time by logging back in.

To deactivate your account:

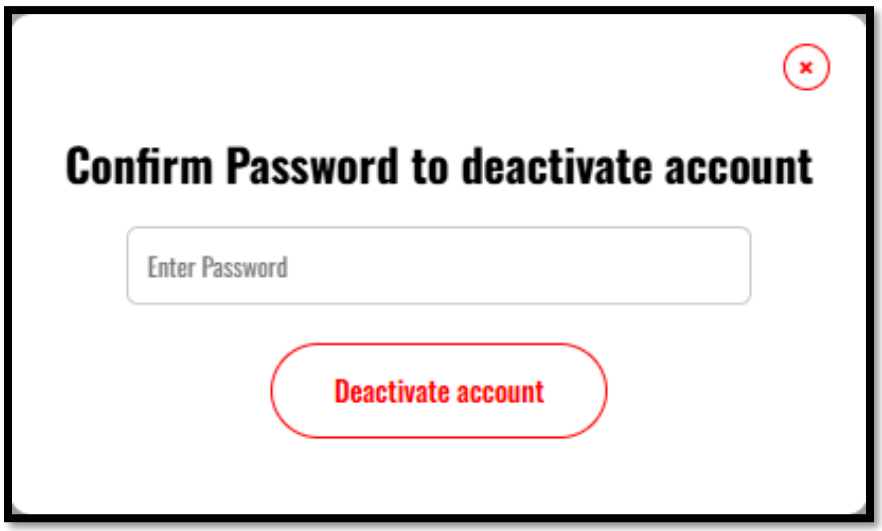

1. Click on **Settings** from the dashboard.

2. Click Deactivate Account.

3. Enter your **account password** for confirmation.

4. Your account will be temporarily disabled.

7.2 Permanently Delete Account

Deleting your account will erase all your data permanently, including:

- Saved vehicles
- Reports
- AI scan history
- Account information

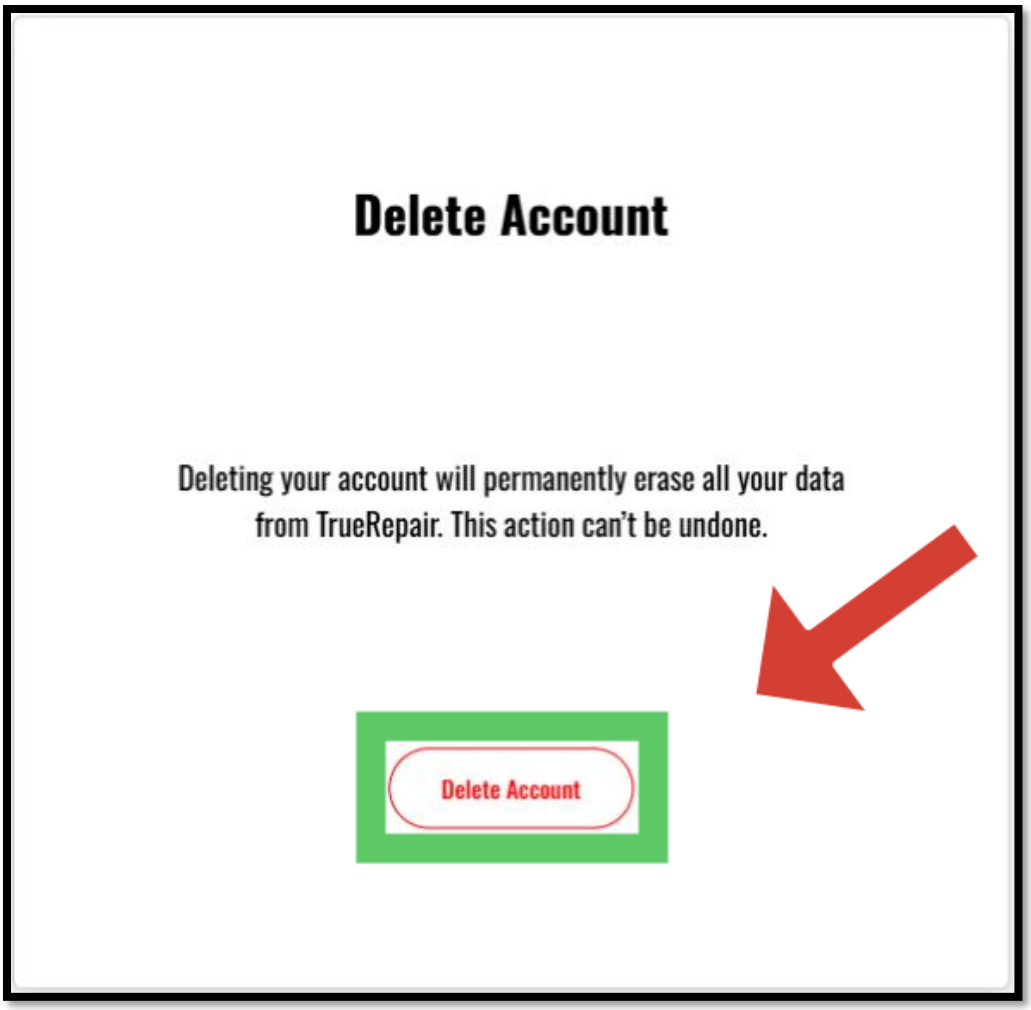

This action cannot be undone.

To permanently delete your account:

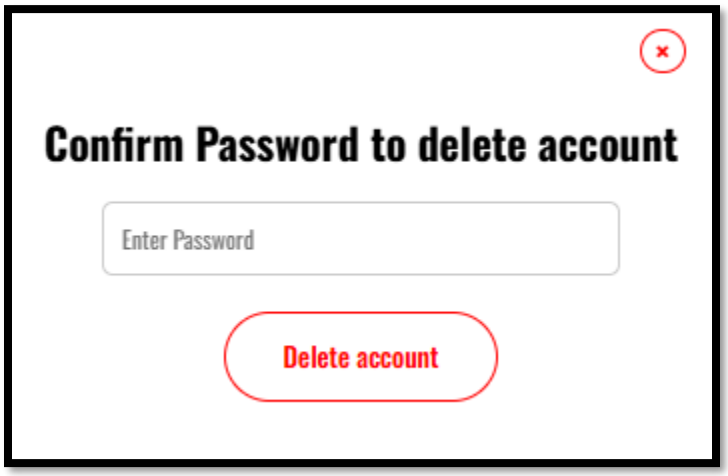

1. Click on **Settings** from the dashboard.

2. Click Delete Account.

3. Enter your account password when prompted.

4. Confirm the final warning message.
5. Your account and all associated data will be permanently removed.

8. Support

The Support page provides quick access to general information, troubleshooting steps, helpful tips, and ways to contact the TrueRepairs team. Whether you're managing your account, fixing an error, or navigating the platform, this section helps guide you every step of the way.

When you click **Support**, you will find:

- General report information
- Quick solutions to common questions
- Troubleshooting help
- Tips for better photo results
- A Contact Us link to reach our team

This page is designed to help you fix issues, understand results, and get assistance whenever you need it.

9. More Information

The Learn More section provides additional information about TrueRepairs, including platform features, company background, and ways to contact our team. These options can be found in the navigation bar or at the bottom of the homepage.

9.1 Features

The Features page gives an overview of the tools and capabilities available on TrueRepairs, including:

- Damage Detection Tool (AI Powered)
- Instant Repair Cost Estimates
- Easy-to-Use Dashboard

9.2 About Us

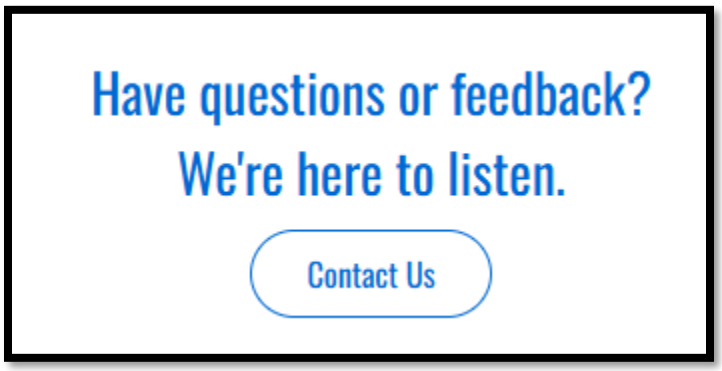

The About Us page explains the mission and vision behind TrueRepairs.

- Who We Are
- Why We Exist
- Looking Ahead

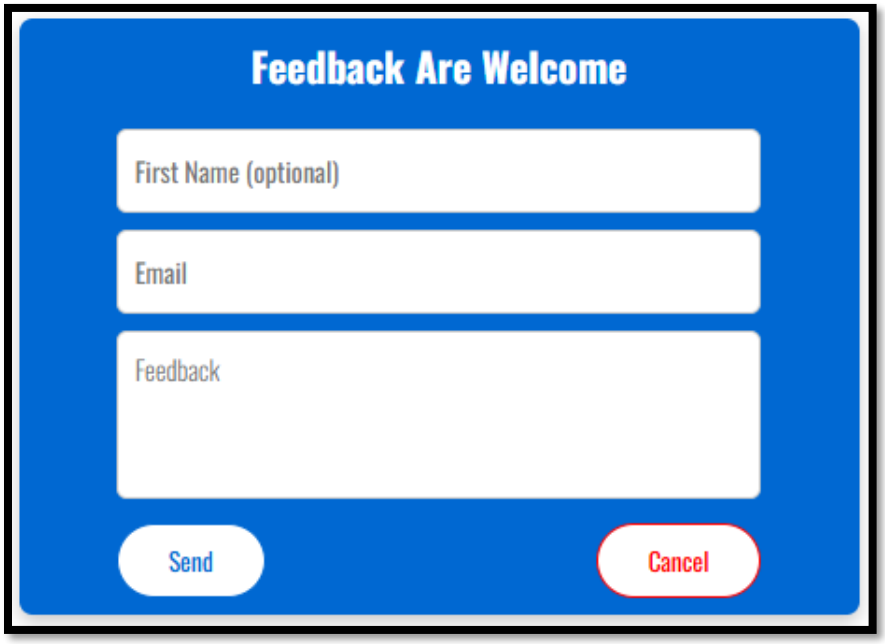

9.3 Contact Us

The Contact Us page allows you to reach the TrueRepairs team directly.

1. Click Contact Us on the navigation bar or homepage.

2. Fill out the required fields (name, email, and message).

3. Click Send to submit your request.

A team member will respond as soon as possible.
